## INNOVATIVE INGREDIENTS

Like all of our products at Neora, we've packed our new ProLuxe Hair Care System with the best and most innovative ingredients from science and nature, so each product is multifunctional to deliver the Real Results we're famous for.

**Amino Acid Blend** is an amino acid based humectant blend. Amino acids are the basic units of all proteins, and are known to interact with hair to produce cosmetic effects including moisturization, structure strengthening, color-protection and repair of surface damages. **SHAMPOO | CONDITIONER | HAIR MASK**

**Coconut Oil** is rich in lauric acid, a saturated fatty acid that is more easily absorbed into the hair than most oils. It has been shown to help remove sebum build-up from hair follicles, and it is known for helping to make hair more manageable and feel softer and smoother. **SHAMPOO | CONDITIONER | HAIR MASK**

**IntulTress™ Complex** is our proprietary blend of peptides, Baobab tree seed extract, and Sea Buckthorn oil, which helps fight the signs of aging by nourishing hair for maintenance and manageability. It provides a solution that addresses hair strength, damage recovery and UV irritation repair. **SHAMPOO | CONDITIONER | HAIR MASK**

**Skincare Crossover™ Complex** is Neora's exclusive complex that uses modern scientific advancements that have been leveraged in skincare for decades. The patent-pending technology behind the complex borrows the principles of skincare to detect, correct and prevent damage you can see and damage you can't see. The technology has been used in salons to help prevent and repair damage done from extreme hair coloring and lightening; now it is available in this exclusive complex from Neora. **HAIR MASK**

**Celery Seed Extract** is a patent-pending, natural extract of celery seeds shown to soothe itchy scalps, moisturize scalps, and decrease sebum production. Its unique properties enable it to address both the concerns of an oily scalp as well as of a dry scalp. **CONDITIONER | HAIR MASK | SCALP TREATMENT**

**IntelliGrey™** is a blend featuring powerful antioxidants to fight against white hair. It works to help restore natural hair pigment from the root, reducing the proportion and density of white hair, so new hair growth looks less grey – without using colorants! The mode of action is "no prejudice" to gender, hair type or hair color. **SCALP TREATMENT**

**ProRenew Plus** is an exclusive blend of the probiotic lactococcus ferment lysate and prebiotic fructooligosaccharides, which supports a healthy skin microbiome and improves skin renewal, barrier function and natural exfoliation to promote a healthy scalp. **SCALP TREATMENT**

**Turmeric** features technology that utilizes the concentrated secretome of turmeric – rich in signaling peptides, growth factors, and epigenetic factors – to make hair appear thicker. **SCALP TREATMENT**
